Re: Acceptance of Notice of Intention to Commence Small Mining Operations, Allroc Products LLC,  
Allroc Pit A Quarry, S/035/018, Salt Lake County, Utah

Dear <sup>RICK</sup>Mr. Morgan:

Thank you for your Notice of Intention to Commence Small Mining Operations and initial \$150.00 permit application fee, received by the Division on January 23, 2003. The Allroc Products LLC Pit A Quarry is located in the NW1/4 of Section 14, T1N, R1W, SLBM, Salt Lake County, Utah. We appreciate your cooperation during our visits to the site while attempting to ascertain the area to be disturbed by this permit. During our last inspection, performed March 20, 2003 (copy attached), a GPS survey was taken and determined that the portion of the site under this notice is at the five acre threshold. A copy of the map of this area has been generated from the GPS survey and is attached. The application is now considered complete and no additional information is required by the Division at this time.

In accordance with rule R647-3-105 regarding the project location, the areas to be disturbed should be plotted on a map in sufficient detail so that they can be located on the ground. **It is also required that the operator mark the proposed (5 acre or less) disturbed area boundary (including access/haul roads) in the field with metal T-Posts (or with some other marker of equal effectiveness). Markers must be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.**

The Utah Mined Land Reclamation Act of 1975 [40-8-7(1)] provides the authority for fee implementation which was approved by the Utah Legislature at its 1998 session. Commencing July 1, 2002, and annually thereafter, the fees for new and existing small mining notices of intention were increased to \$150.00.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

Doug Jensen  
Senior Reclamation Engineer
